

ABOUT THE AUTHORS

Robert L. Peurifoy (deceased) was a distinguished author and consulting engineer in the engineering and construction profession. He received his M.S. from the University of Texas. He taught civil engineering at the University of Texas and Texas A&I College and construction engineering at Texas A&M University and Oklahoma State University. Mr. Peurifoy served as a highway engineer for the U.S. Bureau of Public Roads and was a contributing editor of *Roads and Streets Magazine*. He was the author of two other books: *Construction Planning, Equipment, and Methods* and *Formwork for Concrete Structures*, and wrote over 50 magazine articles dealing with construction. Professor Peurifoy was a registered professional engineer and a member of the American Society of Civil Engineers and the American Society for Engineering Education.

Garold D. Oberlender is professor and coordinator of the graduate program in construction engineering and project management in the School of Civil Engineering at Oklahoma State University. He received his Ph.D in civil engineering from the University of Texas at Arlington. Dr. Oberlender has conducted research and presented seminars on a variety of topics related to construction engineering and project management. A civil engineer with more than 35 years of experience, he has been a consultant to numerous companies in the design and construction of projects. He is also author of *Project Management for Engineering and Construction*, second edition, and coauthor with Robert L. Peurifoy of *Formwork for Concrete Structures*, third edition. Dr. Oberlender is a registered professional engineer in several states and a fellow in the American Society of Civil Engineers. In addition, he is an active member of and has held offices in the National Society of Professional Engineers. He is a member of the American Society for Engineering Education and the Project Management Institute.
