

Correlation Guide

The *Taking Sides* series presents current issues in a debate-style format designed to stimulate student interest and develop critical thinking skills. Each issue is thoughtfully framed with an issue summary, an issue introduction, and challenge questions. The pro and con essays—selected for their liveliness and substance—represent the arguments of leading scholars and commentators in their fields.

Taking Sides: Clashing Views on Psychological Issues, 16/e is an easy-to-use reader that presents issues on important topics such as *homosexuality*, *divorce effects*, *psychological trauma*, and *coercive interrogations*.
