

WELLNESS WORKSHEET 96

Facts About Pathogens and How They Cause Disease

Part I. Pathogens

Familiarize yourself with different types of pathogens by completing the chart below. Refer to your textbook if necessary.

	Description and Examples	Diseases Caused	Possible Treatments
Bacteria			
Viruses			
Fungi			
Protozoa			
Parasitic worms			
Prions			

(over)

Part II. Chain of Infection

Fill in the steps in the chain of infection, and write a brief description of each step. List at least two ways that the chain can be broken at each step.

Chain of Infection	Description
